

# PROTEST

## NO NEW U.S. WAR ON IRAQ!

It has become increasingly likely that the U.S. government will once again take military action in Iraq. It is urgent that anti-war forces mobilize to tell the Obama administration that the people of this country completely oppose any new war on Iraq.

The ANSWER Coalition is gearing up for such efforts, and is calling for nationwide demonstrations as well as emergency actions the day U.S. bombing starts, in the event that it happens before these dates.

We in the anti-war movement fought too long and too hard to prevent and end that illegal and unjust war. We cannot sit by idly today when the Pentagon may be about to open a new chapter in its history of death and destruction. **In San Francisco, we will rally at Powell and Market streets on Sat. June 21 at 12pm. Join us!**

# Sat. June 21st, 12pm

# Powell & Market, SF
